

MATERNITY

Indicator Code	Features Necessary for Indicator	Indicator
G1	First Monitoring Before Birth	Pregnant Woman Examination
G2	First Monitoring Before Birth	Arterial Blood Pressure Monitoring
G3	First Monitoring Before Birth	Complete Urine Test
G4	First Monitoring Before Birth	Complete Blood Count
G5	First Monitoring Before Birth	First trimester screening test
G6	First Monitoring Before Birth	Screening for infectious diseases or elucidating
G7	Second Monitoring Before Birth	Pregnant Woman Examination
G8	Second Monitoring Before Birth	Arterial Blood Pressure Monitoring
G9	Second Monitoring Before Birth	Complete Urine Test
G10	Second Monitoring Before Birth	Complete Blood Count
G11	Second Monitoring Before Birth	Glucose Screening Test
G12	Second Monitoring Before Birth	Normal Fetal Heart Sound
G13	Second Monitoring Before Birth	Second trimester screening test (triple test + ultrasonography) or elucidating
G14	Third Monitoring Before Birth	Pregnant Woman Examination
G15	Third Monitoring Before Birth	Arterial Blood Pressure Monitoring
G16	Third Monitoring Before Birth	Complete Urine Test
G17	Third Monitoring Before Birth	Complete Blood Count
G18	Third Monitoring Before Birth	Normal Fetal Heart Sound (120-160/min)
G19	Fourth Monitoring Before Birth	Pregnant Woman Examination
G20	Fourth Monitoring Before Birth	Arterial Blood Pressure Monitoring
G21	Fourth Monitoring Before Birth	Complete Urine Test
G22	Fourth Monitoring Before Birth	Complete Blood Count
G23	Fourth Monitoring Before Birth	Normal Fetal Heart Sound (120-160/min)
G24	Fourth Monitoring Before Birth	Blood Type Measurement
G25	During Birth	Partograph Use
G26	During Birth (When Caesarean Section is Necessary)	Fetal Distress
G27	During Birth (When Caesarean Section is Necessary)	Fetal Malpresentation
G28	During Birth (When Caesarean Section is Necessary)	Cord Prolapse
G29	During Birth (When Caesarean Section is Necessary)	Plesanta Previa
G30	During Birth (When Caesarean Section is Necessary)	Cephalopelvic Disproportion
G31	During Birth (When Caesarean Section is Necessary)	Previous Uterine Surgeries
G32	During Postpartum Follow-up (for the Mother)	Complete Blood Count

G33	During Postpartum Follow-up (for the Mother)	Uterine Involution Follow-up
G34	During Postpartum Follow-up (for the Mother)	Thyroid Stimulating Hormone (TSH) Screening
G35	During Postpartum Follow-up (for the Mother)	Phenyl Ketonuria Screening
G36	During Postpartum Follow-up (for the Mother)	Arterial Blood Pressure Monitoring
